CCR 02-0702 att1

- ♦ DRL
- ♦ ISA
- ♦ JPL.
- 2. With each HomeDAAC value, use the EDG Tool verify the following
 - ♦ Create an account
 - ♦ Change the account password
 - ♦ Log in with the account name
- 3. Using the Test SMC ECS Account Management GUI, verify the following:
 - ◆ Account is created with expected HomeDAAC
 - ♦ Account can be modified
 - ♦ Account can be deleted
- 4. Using EDG with one of the new HomeDAAC accounts, do a data search and submit an order for ECS data.

in the SMC and DAAC User Account Management GUI

- 2. For each new HomeDAAC, an account was created, the EDG user could change the password and log-in to EDG as a registered user.
- 3. For each new HomeDAAC, the created account was displayed in the SMC and DAAC GUIs, and the SMC operator could modify the account fields and delete the accounts. However, the ISA and DLR values were not available for searches of those DAAC lists.
- 4. The searches were successful and the orders were placed.

Tester.

Passed

Passed/workaround: Missing HomeDAACs added to list. (NCR35117 written-see Description for workaround specifics)

Passed/Sev 3 NCR on an existing condition that doesn't affect processing of data. Correct HomeDAAC values were not displayed in Order GUI. (NCR35133)
